Education

Amrita University

Bachelors in Electronics
& Instrumentation
2009–2013

Jönköping University

Masters in Information
Engineering
2015–2018

CEVT (Zeekr)

Master Thesis: Route
Prediction using ML
2017–2018

Skills

User Experience Design (UX)

Experienced in wire framing, communication, and information architecture, I excel in UX design.

UI design

With a keen eye for detail, design library experience, and expertise in modern tools, I excel in UI design.

UX research

Experienced with various frameworks, teams, and modern tools, I have a strong grasp of UX research.

Development

With experience in React.js and a computer science background, I understand the developer mindset and implementation processes.

AI research

Leveraging AI tools for fast market, product, and user research to inform design decisions.

AI prototyping

Rapidly building interactive AI prototypes using Cursor to test ideas and validate user value.
